

NIVER MARTINEZ

FULL STACK DEVELOPER

PROFILE

I am a person passionate about learning. I fell in love with software development when my friends invited me to hackathons and other programming events. For this reason I would like to be able to share my knowledge and my experience with other people, to make this world a better place to live.

WORK EXPERIENCE

ACCENTURE

2022

Application Developer Associate

I am currently assigned as technical support for a sales reporting application at WALMART INC. However, my previous project was very interesting, because I learned VueJs for a web platform from PROFUTURO, among the activities I did were:

- Component creation, routing, and vuex with VueJS.
- Implementation of WebSockets to synchronize actions between different users.
- Styles with Tailwind and integration of FacePhi and AWS services.

FREELANCE

2020 - 2021

Full Stack Developer

UI Design, Web Application Development, Database Design and REST API Development. Some of the tasks that I have developed in the different projects are:

- Social network for music lovers with vanilla JS, bootstrap, Java, (SpringBoot), MySQL, GitHub and Heroku.
- Platform for real estate services in React.
- UI design and web development of an electronic menu in React.
- Educational platforms for a social project using bootstrap and vanilla JS.
